GOLD INVESTMENT

Bullion Gold Bars

Suitable for gold buyers wishing to buy huge quantities. Gold bars are more convenient to store but offer less flexibility and more illiquidity than gold coins. Private mints manufacture gold bars. They are not considered legal currency and as such are liable to CGT.

Graded Gold Coins

Ungraded gold coins are almost never worth more than graded gold coins. Since there is no assurance of grade, condition, or authenticity, ungraded coins involve some risk. All of the gold coins we provide are made by a sovereign government's mint and have the status of being accepted as legal money. Gold coins are therefore exempt from both VAT and CGT.

Gold Coins

Perfect for investors who want to sell the majority or a portion of their holdings in the next to mid-term. Gold coins often provide much greater purchase flexibility and liquidity when compared to gold bars. Each and every one of the gold coins that we provide is produced by a sovereign government's mint, presenting the circumstance in an appropriate manner. Hence, gold coins are exempt from both CGT and VAT.
